

We're not giving up.

### A TV Update from Your Neighbors at GCI

We've continued to work on this daily, but as of today, we still have not reached a deal to return programming for Fox, ABC, and CW. We know you just want your channels back and we do too. Though we can't legally broadcast them today, we're making it as easy as we can to find [other ways to access](#) them through TV antenna or streaming service. Plus, we're still giving out a [free streaming device](#) if you have our internet\*. We're doing what we can to make things better for you in the meantime and you will continue to automatically receive a credit that reflects the value of the missing content on your monthly bill each month these channels are unavailable.

Though we had hoped our next update would be to celebrate the return of these channels, we still have some work to do. We're truly sorry for the inconvenience this has caused, and we are not giving up. We love these channels too and are still working to get them back at a price that is fair to you.
